

## **Indian Water Works Association**

Registration No. Bom. 105168 GBBSD

B.M.C. Compound, Pipeline Road, Vakola, Santacruz  
(East), Mumbai - 400 055. India

Tel.: 26672665 / 26672666 Fax .(022) 2618 6113

Email : iwwa@rediffmail.com

The Indian Water Works Association (IWWA) was established in 1968 and registered in India (under the Societies Registration Act) with its headquarter in Mumbai at the address given above. It has a large membership spread throughout the country, connected through a network of local centres at Ahmedabad, Bangalore, Vadodara, Mumbai, Kolkata, Hyderabad, Indore, Jodhpur, Lucknow, Chennai, Nagpur, New Delhi, Pune, Srinagar, Guwahati etc.

### **Activities :**

#### **Publication of a Quarterly Journal:**

The Journal of Indian Water Works Association, the only of its kind in the country, is a widely read magazine and carries articles of high technical value contributed by experts in the field of Water Works and Waste-water Engineering and Management. Its other features cover Notes & News (Indian and overseas), Reviews of publications, Latest product Information, etc.

#### **Publication of a News letter : (Midstream)**

It covers the activities carried out and planned by the H.Q. and different Centres of IWWA and News in this field.

#### **Publication of Manuals :**

IWWA publishes manuals on subjects of practical interest to professional Water & Waste-water engineers, managers & consultants.

### **Holding of National Conventions :**

These are organised annually in the month of January / February in important cities in our country. The Conventions attract a large assembly of delegates from all over the country for a fraternal get-together and exchange of views, apart from discussions on the high quality technical papers presented on the Convention. Experts from overseas are also invited to participate in and address the Convention. As a part of the Convention, technical visits are also arranged to important installations nearby and exhibitions of latest technologies, plant and equipment connected with water and waste-water works.

### **The Association also conducts :**

Refresher courses, workshops on specific topics for it's members & other working in the water & waste water sector.

International Conferences, Special Conferences, Seminars and Symposia in association with local & International Organisations and Agencies and also under the aegis of Global Water Partnership, International Water Association and the Association of South Central and West Asian Countries (ASCEW).

Lecture meetings, site visits, film shows etc. in which members attached to different centres participate locally.

### **Other features of the Association are :**

It has close relations with the Global Water Partnership, International Water Association and actively participate in their programmes in different parts of the world.

It assists Bureau of Indian Standards in preparing standards for various items connected with water supply and waste-water engineering and technology.

### **Membership of the Association is available to :**

Water, waste-water and irrigation engineers holding a Degree or Diploma and working with design, construction, operation and maintenance of water and sewerage works - e.g. dams, reservoirs, headworks, canals, wells, water & waste water treatment plants & waste water disposal works.

Environmentalists, Chemists, Bacteriologists, Biologists, Geologists, Economists and Administrators working in organisations for water supply, irrigation and sewerage works.

Teaching Staff members of Engineering Colleges and those of Research Institutions connected with the subjects of water supply, irrigation, waste-water and hydraulic engineering.

Engineers working with manufacturers and suppliers of equipment and instruments used in water and sewerage works, e.g. pumps, pipes, valves, meters and accessories, plumbing fixtures, electronic gadgets for measurements of flow of water and its quality characteristics.

Sanitary engineers practising in domestic and industrial plumbing.

**Organisations** - Govt./Private involved in design, construction, operation, maintenance, financing, administration and management of water supply, irrigation, hydro-electricity and sewerage systems. Companies manufacturing and supplying materials and equipments to be used in water supply and waste water services.

Students of Science and Engineering colleges and even others who may not have the qualification necessary for regular membership but have interest and work experience in water related subject. They can become Student and Associate members respectively.

## **EIGHT GOOD REASONS**

### **As to why should you become and continue to remain a Fellow / Member of the Indian Water Works Association :**

1. You have the opportunity to be with a family of professionals, well-versed in the field of water and waste-water sector. This can help you in furthering your personal prospects and career in this field. IWWA is the largest professional Voluntary Organisation of its kind in South and Central Asia.
2. You can attend several technical lecture meetings and participate in other programmes, such as film shows, construction site visits etc. and update your information and knowledge in the field of water & waste-water engineering.
3. You will receive (free of cost) the quarterly issues of the Journal of IWWA, which contain articles of current interest and those of lasting value written by experts in this field and which will guide you in various aspects of your profession. You can also contribute articles of interest to other fellow members and see your written words in print.
4. The Journal of IWWA carries many interesting items, such as the local and the foreign news, book reviews, short communications on assorted topics, synopsis of articles of allied interest published in other journals, synopsis of dissertations of postgraduate students in the field of environment sciences and technology. These items will keep you informed of the latest developments in your chosen field.
5. You will receive (free of cost) an informative Newsletter 'MIDSTREAM' of IWWA.
6. You will get useful publications of IWWA at concessional rates, which can guide you in your day-to-day work. You will have free access to IWWA library, stocked with a large number of publications on water and waste water related subjects.
7. You can attend Seminars, Symposia, Workshops and Exhibitions organized by the Centres of IWWA as well as Annual Conventions of the Association, and meet various professionals/experts from India and abroad. This will help in improvement of your career in the field of water and waste-water engineering and technology.
8. Membership subscription is also quite low when compared to the benefits available and is given in Table 3 on page 4 for different classes of membership in the application form, while their figures for one time subscription for life are given in table 1.
